# Experiment 5 — JQL Queries

Done Done Improve Task

## Description

## Experiment 5 — Predefined and User-Created JQL Queries

### Current verified snapshot (14 October 2026, after backlog expansion)

| Purpose | JQL | Expected/latest count |
|---|---|---|
| All project work items | `project = ACS` | 46 |
| Product stories | `project = ACS AND issuetype = Story` | 15 |
| Active sprint items | `project = ACS AND Sprint in openSprints()` | 4 |
| Active sprint incomplete | `project = ACS AND Sprint in` | 4 |

Configure

| | | |
|---|---|---|
| | `1.1"` | |
| Release 1.2 group | `project = ACS AND labels = "release-1.2"` | 7 |
| Open product Stories | `project = ACS AND issuetype = Story AND statusCategory != Done ORDER BY priority DESC, Rank ASC` | Changes with work |
| Backlog Story ordering | `project = ACS AND issuetype = Story ORDER BY Rank ASC` | 15 |

Use the exact queries in Jira Issue Search to refresh counts; these counts are a timestamped snapshot, not permanent data.

## Direct query launchers

Five links in this issue's **Web links** section launch Product Stories, Active Sprint, Active Sprint Incomplete, Release 1.0 Stories and Unresolved Bugs JQL searches

## Saved-filter status

These are direct query launch links, **not native saved filters**. The connected Jira operations expose list/read of saved filters but not filter creation. To meet a requirement for user-created saved filters, run each relevant query in Jira Issue Search and use **Save as**, then confirm the filter name and owner. I have not claim filters were saved.

## Source context

JQL operates against the real Alumnex Connect product backlog and native ACS Scrum sprint. Product implementation links are maintained on the Stories; repository source: FSD/alumni-connect-website-main at master · SrimanKumarV/FSD.

Final verification after adding the umbrella Epic ACS-28: project issue count is now 28; 8 Stories; active Sprint 2 has 4 issues, 4 incomplete and 0 Done; 0 unresolved Bugs; release-label groups are 4/2/2. Sprint 2 metrics

show 2 In Progress, 2 To Do, all 4 assigned, no unassigned or at-risk issues.

**SRIMAN VEL**
1 day ago

Updated post-Sprint-2 JQL evidence: ACS total 27; Stories 8; active Sprint 2 has 4 issues, 4 incomplete and 0 Done; unresolved bugs 0; experiment-label counts 1 each for experiments 8/9/10; release-label counts 4 / 2 / 2.
